

PRODUCT OVERVIEW

Our stainless steel air vent valve is designed for optimal performance in various applications, including water systems, HVAC, and food processing. This valve efficiently releases trapped air from pipelines, enhancing system efficiency and preventing airlock issues.

MATERIAL

Body : SS304

Floating Ball : SS304

Seal : EPDM

Max.Working Pressure : 16Bar

DIMENSION

DN	G	L	H
15	1/2"	75	110
20	3/4"	75	115
25	1"	75	118
